THE LEGISLATURE

CAUCUSING AND CONNUBIATING.

The Legislative Political Arena, with Some of its Outlook. The Golden Eagle and Capital Hotels were the scene of a great deal of excitement to beat Parks. An informal caucus of the friends of both these gentlemen was held Napa, Lake and San Diego are from other in the parlors of the Golden Eagle in the first ballot in caucus, then the friends of the opposing candidates should, on the second ballot, go over to the one receiving the makes it their duty to forward the figures highest vote. This is the settled proto the Secretary of State, but they have gramme, but the friends of Parks are smil ignored the law. At the counting of the ing and confident, and say that neither ing and confident, and say that neither contest in this State been a very and the transfer is attempted, enough of close one. It will be seen that in such an the votes will come to Parks to insure his event it is within the power of the Clerk of success. Jordan and Hazard are both active in their canvass, while Parks, it may well be supposed, is making a quiet bu thorough canvass. Some of his friends claim that he will go into caucus with a najority. As the matter stands, it is as yet anyhody's fight. Patterson has withdrawn as also Yule, and it is not known who the latter gentleman favors. THE SENATORIAL STRUGGLE.

Mr. Estee has been keeping open hous at his rooms at the Capital Hotel, and his lieutenants are out in the field, vigilant and active. Governor Perkins and ex-Senator Sargent both came up on last evening's train, and repaired at once to their ooms at the Golden Eagle, where they were met by numerous political friends The friends of all parties were busy vester day, but the absence of so many member made it a hopeless task to form any opinion. Beside those three named are ntioned David McClure, ex-Senator Stewart, Henry Vrooman of Alameda, Wm H. Parks, W. A. Holcomb and Colonel J P. Jackson.

THE SENATE. It was generally conceded up to yesteray evening that the Democrats would ridge over their differences and present solid front when it comes to organizing the Senate. The serenity of Democratic faces was somewhat disturbed by a seemingly well-grounded rumor that a couple of th ead-out Senators who came up on las right's train were loud in their denuncia ion of the other wing. As if this were not nough, after all the caucusing of the nocratic Senators in San Francisco, and their efforts to smooth things over, a rumor reached currency and was rapidly spread hat Senator Foster (Dem.) of Tehama was nowed in on the snow-bound train on the Northern Pacific, and that the Republicans could, if they chose, organize the Senate

LOCAL INTELLIGENCE.

HELD TO ANSWER.-The room of the Police Court was crowded on Saturday morning by people who desired to hear JudgeHenry's summing up of the testimony of the Ida Evinger case. After the Court was opened by Bailiff Kent, by consent of counsel on both sides, the audience was allowed to remain. The defendants, Cavanaugh and Bulger, occupied seats at the bar beside their attorneys. Judge Henry said: "I have but very few words to say in this case. We have just concluded a long | for the purpose of electing a License Coland tedious examination, one of serious import to the defendants, to the citizens of Sacramento and the people of the State. I have listened carefully and attentively as informal—and also to consider matter to all the testimony introduced and relative to the Twelfth-street road. the able arguments made by counsel. I think there has been an ination P. F. Dolan for Collector. earnest endeavor on the part of the counsel on both sides to conduct the case honestly and faithfully. I believe from the evidence that Ida Evinger was a poor, simple-minded and virtuous girl when she came to Sacramento, and remained so up to the time Bulger, it is claimed, outraged her. I be-lieve the defendants offered her employment for the sole purpose of debauching her, and they are therefore guilty of the crime of rape. Counsel for defense have said if the prisoners are held they will be released on habeas corpus. That is somereleased on habeas corpus. That is something that interests the higher Courts. A resolution, introduced by Mr. Steinman, was adopted, fixing Dolan's salary at justified for the commission of such crimes.

I therefore hold the defendants to answer to the Superior Court for the crime of rape, and fix the amount of bail in each case at \$5,000 be taken out of the amount of the officers of Natoma Lodge, No. 64, F. and A. The attorneys for the defendants, as soon as the latter were taken to the County Jail, procured Judge McFarland's signature to a writ of habeas corpus, di rected to the Sheriff and made returnable on the 9th instant. Pending the hearing, Judge McFarland allowed them to give bail in the sum of \$2,000 each, and they were both released on bonds. The case of Walter P. Emery will come up for trial one

Assembling of the Legislature.

The presence in Sacramento of so many strangers is a text for a word in regard to the general advantages of our store and its facilities for supplying their wants. These are its leading characteristics briefly told:

A. The same price to every one.

B. Every article sold for exactly what it is worth.

C. Money cheerfully refunded where selections are not satisfactory.

D. Plain figures and lowest prices.

We have stuck to those principles for ten years. Have preserved them in their entirety. Have kept them in active force. Under their healthful influence trade has grown and expanded. Will grow, will expand.

Still other advantges presented of another sort are: A. The consumer brought almost in direct contact

with the producer. B. A trade large enough to justify the careful buying on our part of each item.

C. Three buyers constantly in the market.

SAN FRANCISCO MARKET. SAN FRANCISCO, January 3d.

We quote: Best city extra, \$4 25@4 80: n, \$3 50@4; shipping superfine, \$2 5 WHEAT—The situation partakes of a some what buoyant character. BARLEY—In the sample market business has not shown any special activity during the week. Yet there has been a moderate jobbing trade, and immediate wants have been readily supplied. A choice article of feed commands 95c, while anything up to No. 1 standard will bring 92½c. Other grades sell proportionately lower. Brewing moves off with fair freedom. A strictly prime lotscould likely be placed at \$1 15, though the general range is from \$1 05 to \$1 12½ \$\psi etl.

On call to-day there was fair demand, while prices were a trifle stronger than yesterday afternoon. Sales were as follows:

There are many at the age of 30 to 60 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the coler will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
